DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 and 13-15 are allowed over prior art of record.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicants' response filed on October 25th, 2006 (see Applicants' arguments in pages 2-3 listed under Remarks of the October 25th, response), it is determined that the prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole taken alone or in combination, in particular, prior art of record does not teach "bonding a surface protection tape to the wafer using an adhesive material which contacts the passivation film in the whole periphery region of the wafer after the step (d)", as recited in the independent claims 1 and 15 and "reducing the thickness of an outermost peripheral part of the buffer coat film located on the whole periphery region of the wafer having a certain distance from the periphery of the wafer", as recited in the independent claim 6.

Claims 2-5, 7, 13 and 14 also allowed as being directly or indirectly dependent of the allowed independent base claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
